

# **SAFETY DATA SHEET**

CONFORMS TO OSHA HAZARD COMMUNICATION STANDARD (HCS) 29 CFR 1910.1200

Page 1 of 4

Revision Date 8/24/2015 Supersedes Date 7/30/2015

## **SECTION 1. IDENTIFICATION**

Product identifier: JAX White Mineral Oil 32, 46, 68, 100

Part number: WM032; WM046; WM068; WM100

**Identified uses:** Direct food-contact lubricant; release agent

<u>Uses advised against:</u> As a direct food-contact lubricant, there are no specific uses advised against. Potential uses advised against may be specified

elsewhere in this SDS.

Supplier: JAX INC.

W134 N5373 Campbell Drive Menomonee Falls, WI 53051 USA

Email contact: info@jax.com

**Non-emergency** Phone: 262-781-8850 Fax: 262-781-3906

contact:

**Emergency telephone:** INFOTRAC:

International 011-1-352-323-3500 (collect) China 400-120-0761

**SECTION 2. HAZARD(S) IDENTIFICATION** 

Classification: While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS

contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and

available for employees and other users of this product.

<u>Label elements</u>

Additional information: Not applicable.

**SECTION 3. COMPOSITION / INFORMATION ON INGREDIENTS** 

Composition: Chemical name % CAS # Impurities

White mineral oil (petroleum) 100 8042-47-5 None

**SECTION 4. FIRST-AID MEASURES** 

First aid measures

**Eye contact:** Remove contact lenses, if wearing, and flush eyes with water for at least 15 minutes or until irritation subsides. If irritation

persists, consult a physican.

**Skin contact:** Remove clothing and shoes, if contaminated. Wash skin with soap and water. Wash or clean contaminated clothing before

reuse and discard oil-soaked shoes. If irritation persists, consult a physician.

**Ingestion:** If swallowed, DO NOT induce vomiting. As a precaution, give the person a glass of water to drink and seek medical attention.

Never give anything by mouth to an unconscious person. Consult a physician.

**Inhalation:** Remove to fresh air. If breathing is difficult, give oxygen. If not breathing, give artificial respiration. Get medical attention

immediately.

**Most important** No further relevant information available.

symptoms and effects, both acute and delayed:

#### **SECTION 5. FIRE-FIGHTING MEASURES**

<u>Suitable extinguishing</u> media:

Extinguishing media include dry chemical, alcohol foam, and carbon dioxide. Do not use direct stream of water. Water may be

used to keep fire-exposed containers cool.

Do not use direct stream of water.

<u>Unsuitable</u>

Specific hazards:

extinguishing media:

Pressure build-up due to heat exposure may cause containers to rupture. Use water spray to keep containers cool.

Advice for firefighters: Firefighters should wear full protective gear, including helmet. Use supplied-air breathing equipment for enclosed or confined

space or as otherwise needed.

#### **SECTION 6. ACCIDENTAL RELEASE MEASURES**

Personal precautions, protective equipment and emergency

In the event of a spill or accidental release, notify relevant authorities in accordance with all applicable regulations. Keep away from ignition sources. Wear protective equipment. Keep unprotected persons away.

Environmental precautions:

procedures:

Prevent entry into sewers, waterways or confined areas by diking or impounding. Dike far ahead of spill for later recovery and disposal. Advise authorities if the product has entered or may enter sewers, watercourses, or extensive land areas.

Methods for containment and cleaning up

Land spill: Stop leak if you can do so without risk. Recover free product using non-sparking tools. Add sand, earth, or other suitable absorbent material to the spill area. Recover by pumping or with suitable absorbents. Dispose of in accordance with national and/or local regulations relating to waste disposal.

**Water spill:** Stop leak if you can do so without risk. Confine the spill immediately with booms. Remove from the surface by skimming or with suitable absorbents. Seek the advice of a specialist before using dispersants.

#### SECTION 7. HANDLING AND STORAGE

Precautions for safe handling:

Keep away from heat and direct sunlight. Ensure good ventilation/exhaustion at the workplace.

Conditions for safe storage, including any incompatibilities: Store in a cool, dry place in tightly sealed containers. Store out of direct sunlight. Do not store near heat, sparks, open flame, pilot lights, static electricity, or other sources of ignition. Do not store where temperature may exceed 49°C (120°F). Store away from oxidizing agents. Rotate stock.

# **SECTION 8. EXPOSURE CONTROLS / PERSONAL PROTECTION**

 Workplace exposure
 Chemical name
 Exposure limit and source

 limits:
 White mineral oil (petroleum)
 5 mg/m³ (oil mist), TWA, ACGIH

**Exposure controls** 

Engineering controls: Provide exhaust ventilation or other engineering controls to keep the airborne concentration of vapors below their respective

occupational exposure limits.

**Ventilation:** Use in a well-ventilated area. See Engineering Controls.

Personal hygiene: Wash skin thoroughly after contact, before breaks and meals and at the end of the work period. Product is readily removed

from skin by waterless hand cleaners followed by washing thoroughly with soap and water.

**Eye protection:** Chemical splash goggles or face shield in compliance with OSHA regulations are advised when eye contact may occur.

**Hand protection:** Any lined non-permeable rubber gloves.

Not available

Respiratory protection: Use with adequate ventilation. Respiratory protective equipment is not normally required where there is adequate natural or

local exhaust ventilation to control exposure. In case of insufficient ventilation, wear suitable respiratory equipment. A

 ${\bf NIOSH/MSHA-approved\ air-supplied\ respirator\ is\ advised\ in\ absence\ of\ proper\ environmental\ control.}$ 

## **SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES**

Appearance / odor: Water white lube oil with little or no odor Upper flammability limit: Not available

<u>Lower flammability limit</u>: Not available

<u>Physical state:</u> Liquid <u>Vapor pressure:</u> Not available

Odor threshold: Not available Vapor density:

Not available

Melting / freezing point: Not available Relative density: 0.86-0.87 (typical)

Initial boiling point Not available

<u>pH</u>:

and boiling range: Solubility in water: Negligible
